TURKEY

Turkey has not only been known as a holiday destination, but also as a good hunting opportunity for big wild boars. You can perfectly combine a family holiday with a hunting trip. Depending on the time of the year and the hunting area, you will fly into Antalya, Ankara, Konya or Elâziğ. You will be welcomed at the airport, helped in importing your weapon and then driven to your hotel. The drive is about 30 minutes. You will be accommodated in 4 – 5 star hotels that are close to the hunting area. The drive from the hotel to the hunting area is approx. 25 – 40 minutes. The average tusk length is between 7" – 10" (19 – 25 cm). Due to the excellent biotopes and untouched nature, it is possible to shoot boars with a tusk length of over 12" (30 cm). The hunt begins at twilight and continues into the night. Therefore, after a copious breakfast at the hotel, you can either explore the countryside, relax at the hotel or help to prepare the feeding places for the wild boars. You will enjoy lunch and dinner in traditional Turkish restaurants.

Turkey is extended over two continents. 97 % of their area is in Asia and just under 3 % in Europe. In the north it borders on the Black Sea for almost its entire length and in the south and west on the Mediterranean and Aegean Seas. The coastal climate is pleasant all year round. In summer the temperatures reach more than 86 °F (30 °C) and in winter mostly not below 50 °F (10 °C). It's different inland. The climate here is more continental. In winter with sub-zero temperatures and very hot summers. About 49 % of the land is used for agriculture and about 28 % is forested, the rest consists of open fields and mountain ranges.

NOTE: We highly recommend staying a few days before or after your hunt in Turkey to explore this beautiful, historical county, with its traditional markets you can only find in Turkey. You can explore the city on your own or we can help you to organize a guided sightseeing tour (POR). Their traditional cuisine, beer and wine will not disappoint you. Turkey is also well known for its black tee and snaps (Raki).
